# STEVE WORON'S Female-Fantasy Trading Cards

Steve Woron is considered by many to be producing the finest female-fantasy art in the graphics world today. Steve's art contains a purity unlike all others in the field. His work is done purely to his stringent standards, and not one of his illustrations is influenced by editors, art directors, or publishers. Since 1983 he continues to be an innovator. Take the journey through Steve's fantasy world with his unique premium trading card set. Feel the chill of a she vampire's cold stare, the danger of a formidable barbarian's sword, the beckoning of a sultry siren and the hypnotic appeal of former model Betty Page! Don't miss the opportunities of leather, lace, silk and steel by one of the masters; Steve Woron.

Great art and fabulous bonus offers make this 72 card set, full color, full bleed, both sides one of the hottest collector's series of the year! These cards are printed using the finest card stock available and UV coated (both sides) for that super satin feel. The backs feature related text and comments to the front artwork.

## Steve Woron Treasury

Woron has defined our perception of women since 1987. His love for the female form started in the early 80's e with his creation of the Survivors. Later his talents focused more on single illustrations. Since that time he has given us many exotic portfolios prints, T-shirts and books. His work does not reflect influences from publishers or editors. This gives his work a "purity" rarely seen in the field.  
 This publication features a lengthy interview, combined with previously unpublished art and sketches. Included also are movie preproduction work and various pieces from his commercial period, along with his earliest known works. A collector's must have!

# BETTY PAGE LIMITED PRINTS

## A LITTLE ABOUT OUR PRINTS

You'll find most of our prints have several editions and not only does an artist's signature have a value but so does the paper quality. Cover stock is always much heavier than text stock. We usually use these 3 stocks:  
**ABW**- This 80lb. Avon Brilliant White cover stock is very heavy and has a very distinctive texture. This is the best stock we print on.

**MV**- This 65lb. Mohawk Vellum cover stock is quite heavy and a good all around stock.

**TXT**- This 80lb. text stock is our best economy stock. The stock is thin but still good to reproduce the artist's ink work.

Unless specified our prints are B&W, if a print is rendered in detailed tones with our special tone-reproducing ink, you'll see this "T" note next to the description.
